renew[™]

Made from Recycled Leather

A Beautiful Blend of Nature and Technology

Capturing the appealing look and feel of leather, Renew[™] represents a new category in furniture coverings. This recycled leather construction offers similar colors, depth, luster, dimensional grain, and hand-rubbed layered tones as genuine leather, while delivering care-free, high-performance reliability – year after year.

The best part? Renew is kind to the environment by recycling scrap leather headed for already overcrowded landfills. This reduces the amount of waste generated in traditional leather manufacturing and transforms leather pieces into a beautiful, carefree and affordable alternative.

Scratch & Stain resistant

Fade resistant

Highly durable

Cleanable with soap and water

Manufacturing process minimizes waste, hazardous by-products, and energy expenditure

PVC-Free

Face-finished with eco-friendly cellular polyurethane
